8 Tools Your Workshop Has Been Waiting For

Everything connected — from the car at the gate to the paid invoice — in one system that works on any phone, tablet, or PC.

 01 — JOB CARDS Capture Everything at the Gate Plate, VIN, Istimara, odometer, photos, complaint, inspection checklist, technician, labour, and parts — everything on one digital card. No paper. No lost info.	 02 — REPAIR BOARD See Every Bay. Know Every Status. Drag job cards across To Do → In Progress → Done. Every technician and bay visible on one screen — no morning meetings, no whiteboards.
 03 — VEHICLE REGISTRY Full History with One Plate Scan Every service, part, invoice, and technician linked to the vehicle. Scan the plate — see the complete history instantly. Customers trust you more when you remember everything.	 04 — SPARE PARTS INVENTORY Know What You Have. Know Your Profit. Live stock per warehouse. Purchase vs. selling price, auto-fill from last purchase. Barcode-ready catalog with images, SKU, and margin per part — plus stock transfers and write-offs.
 05 — ZATCA E-INVOICING Legally Compliant. One Click. Phase 1 & 2 compliant e-invoices — QR code, XML, and PDF generated when the job is done. 15% VAT calculated correctly every time. No tax surprises. No ZATCA fines.	 06 — PROFIT DASHBOARD Find Out Where You're Losing Money 50+ real-time charts. Revenue, costs, and profit broken down by labour, parts, and services. Which technician earns most? Which service drains profit? Know it instantly.
 07 — TECHNICIANS & PAYROLL Pay Your Team Right. Every Time. Assign jobs to technicians, track hours and revenue per person. Run payroll directly from completed job cards — no manual calculations, no disputes, no double entry.	 08 — COMPLETE ERP + AI The Back Office — Fully Automated Purchases, expenses, double-entry accounting, chart of accounts, multi-store, customer deposits — and on AI Pro, natural-language queries in Arabic and English. Run your ERP from a chat window.

Car In. Invoice Out. 5 Seamless Steps.

Every repair follows the same path. StartPOS keeps every step connected, logged, and traceable — no gaps, no lost information.

1	Register the Vehicle — Instantly Enter plate, chassis/VIN, odometer, Istimara, and photos. StartPOS loads the full service history in seconds if the car has been in before. Customer says "it's been here" — you already know everything.	LIVE EXAMPLE Plate: ABC 1234 · VIN: 1HGCM8263... ▶ 6 previous jobs found
2	Open a Job Card & Assign a Technician Document the complaint, checklist, and approved work scope. Assign to a technician — the job card appears on the Repair Board immediately. Customer gets a WhatsApp confirmation.	JOB CARD #JC-0847 Tech: Ali Hassan · Bay 3 Status: In Progress ●
3	Add Parts & Labour — Profit Calculated Live Pick parts from inventory with live stock count. Add labour at your hourly rate. Cost, selling price, and gross profit appear instantly — no spreadsheet math, no guessing.	PARTS ADDED Oil Filter x 1 — SAR 45.00 Labour 2h x SAR 60 — SAR 120.00 Profit: SAR 82.50 ▲
4	Track on the Board. Customer Stays Informed. Drag the job card as work progresses. Every status change is timestamped and triggers an automatic WhatsApp update — "Your car is ready" — without a single phone call from your team.	REPAIR BOARD TO DO > IN PROGRESS > DONE
5	ZATCA Invoice. Payment. Done. Convert one or multiple job cards into a single ZATCA Phase 2 e-invoice in one click. VAT calculated, QR code generated, PDF sent on WhatsApp before the customer reaches the counter.	INV-2847 · ZATCA ✓ Total: SAR 190.25 incl. 15% VAT WhatsApp PDF sent ✓✓

Own It Once. No Monthly Surprises.

One-time software license. Optional annual hosting if you want us to manage the server. Additional POS terminals SAR 500 each. All prices include 15% VAT.
